

FAQ

The PCC Plan's PIP Program

Q. What is “PIP”?

- A. The Prospective Interim Payment (PIP) is an optional monthly cash advance for physicians, nurse practitioners, group practices, and community health centers that are Primary Clinician (PCC) Plan providers.

Q. How is my PIP amount calculated?

- A. This payment is a monthly advance equal to 25% of the monthly average of the previous quarter's actual paid claims, including enhancements, for services provided to your PCC Plan members.

Q. Will my PIP payment vary from month to month?

- A. Yes. The PIP is recalculated quarterly, based on actual paid amounts for the previous quarter.

Q. When do I get my PIP?

- A. The PIP checks are cut on the first Tuesday of the month, and the checks are mailed the following Friday. (If you receive your reimbursements through an EFT (electronic funds transfer), the transfer will occur on the Monday following the date your check would have been mailed.)

Q. From whom do I get my PIPs?

- A. The state treasurer processes all state agency disbursements, including PIP payments.

Q. How are the PIPs reconciled?

A. A recoupment account is set up for the PIP, and the advanced monies are collected from current paid claims.

Q. What happens to my PIP account if I leave the PCC Plan?
